

Andrzej Pruszyński

Senior Frontend Developer (React / Next.js) | Wrocław, Poland | (+48) 664-745-489
andrzej.pruszyński90@gmail.com | www.linkedin.com/in/andrzej-pruszyński

Summary

Senior Frontend Developer with 5+ years of experience building scalable, high-performance web applications in enterprise environments. Specialized in React and Next.js with focus on performance, architecture, and user experience. Proven track record of leading frontend initiatives and delivering business-critical features.

Core Competencies

- Frontend Architecture & Scalability
 - Performance Optimization & Core Web Vitals
 - SEO Optimization (Next.js)
 - Code Quality, Refactoring & Maintainability
 - Technical Leadership & Mentoring
 - Enterprise E-commerce Platforms
 - Cross-functional Agile Collaboration
 - Multilingual & Multi-region Applications
-

Technical Skills

- Frontend: React, Next.js, JavaScript (ES6+), TypeScript
- State Management: Redux, Zustand, React Query
- Styling: HTML5, CSS3
- API: REST API, GraphQL
- CMS: Adobe Experience Manager (AEM)
- Tools: Git, npm, Yarn, Vercel, Postman
- Cloud: Microsoft Azure
- Testing: Cypress, Jest

Professional Experience

TD Synnex – Senior Frontend Developer (03/2023 – 09/2025)

- Led development of critical frontend features for a large-scale e-commerce platform, enabling faster delivery of business initiatives and improving platform scalability.
- Improved application performance and reduced page load times by ~30%, addressing slow user experience issues that impacted engagement and conversion.
- Supported enterprise platform operating across multiple APAC markets, helping standardize frontend solutions for international business requirements.
- Designed and implemented multilingual AEM solutions, solving content management inefficiencies and enabling faster regional content operations.
- Defined frontend architecture and state management strategy for a multi-region application, reducing technical debt and improving long-term maintainability.
- Refactored legacy frontend modules to resolve scalability and reliability issues that slowed down feature development.
- Owned and stabilized critical order flow functionality, helping secure a major business contract renewal by improving reliability of core purchasing processes.
- Resolved complex AEM rendering and data-loading bottlenecks, significantly improving frontend responsiveness and reducing operational friction for users.
- Mentored developers and conducted code reviews, improving code quality consistency and reducing onboarding time for new team members.
- Collaborated with cross-functional Agile teams as a frontend coordination expert, improving communication efficiency between business, backend, and frontend teams.

Tech: React, Next.js, AEM, Zustand, Azure

Xentropy.ai – Frontend Developer (05/2024 – 11/2024)

- Delivered MVP of an AI-powered legal assistant platform from scratch within 2 months, helping the startup validate product-market fit under tight deadlines.
- Improved onboarding flow with chatbot-driven UX, reducing initial user friction and increasing usability for non-technical users.
- Optimized UI responsiveness and frontend performance, addressing early scalability and usability issues common in fast-growing startup products.
- Improved AI prompt quality and output accuracy, helping increase usefulness and trustworthiness of generated legal responses.

Tech: Next.js, Python, Supabase, Vercel

Stellarity – Frontend Developer (02/2022 – 01/2023)

- Developed e-commerce platform with advanced 3D customization features
- Optimized GraphQL data-fetching strategy, reducing redundant API calls and improving application responsiveness under growing data loads.
- Delivered scalable admin panel solutions, helping internal teams manage products

Tech: React, Next.js, Redux, GraphQL, TypeScript, Azure

Self-Employed – Frontend Developer (08/2020 – 02/2022)

- Developed SPA job board platform, solving performance and usability challenges
- Built multiple frontend applications focused on architecture and performance

Tech: React, Next.js, Performance Optimization, Frontend Architecture

Chamielec Architects / Business Design / ATD Architects - Civil Engineering Architect (01/2015 – 07/2020)

- Designed and coordinated multi-disciplinary architectural projects ensuring quality delivery and client satisfaction.
- Collaborated with clients, engineers, and construction teams across project lifecycle.
- Supported project execution and site supervision, ensuring alignment with design and technical requirements.
- Prepared technical documentation and visual materials supporting design and business processes.

Tech: AutoCAD, Revit, SketchUp, Adobe Photoshop, Illustrator, Premiere, Lumion, Artlantis

Career Break (10/2025 – Present)

- Family caregiving responsibilities — now available full-time.
